ABOUT THE PROJECT

Originally built in 1992, the Board members of Crookston Fuel Company decided that with the proven success of their store, it was time to expand and upgrade their facility. The outcome was a first-class convenience mart that continued to serve the community... even while under construction.

PROJECT FEATURES

- 754 square foot addition for an expanded kitchen area and the addition of Deli Max food program.
- Addition of seating area for food program consumers.
- Expanded bathrooms featuring decorative ceramic tile walls and durable quarry tile floors.
- Updated building facade utilizing Dryvit on three sides and mortarless brick at the entrance.
- Addition of new decorative metal standing seam roof with overhang and architectural store front detail.

EXISTING FACILITY

- 2,275 square foot building with a horizontal flat metal fascia, metal wall panels, and artificial block front.
- Cashier area set back from entrance/exit.
- Small restrooms with vinyl flooring and FRP wall finishes.
- Insufficient walk-in cooler and freezer space.
- One small office and large conference room (used as overflow storage).
