ABOUT THE PROJECT

As one of the areas leading manufacturing facilities for plastics molding, Juno's plant addition/remodel project was necessary to accommodate the tremendous growth they have experienced, as well as to provide an updated working environment for their employees.

PROJECT FEATURES

- Addition included relocating and expanding to 5 overhead loading dock doors.
- Training facilities were added to allow more efficient instruction to new employees.
- Updated and expanded office areas for a variety of personnel.
- A new locker area and break room were added for employee use.
- Large expansion to shipping and receiving area.

PROJECT SPECIFICATIONS

- Utilizes Butler® Landmark 2000™ Building System, CMR24™ Roof System, and Shadowrib™ wall panels
- 40,000 square foot manufacturing addition
- 340 square foot locker room
- 4,000 square foot office area
